SOLID COLOURS

This new TC300 color collection is unique because each color is like a language—for itself—conveying emotions and mood. Each color has its own special message:

White – a white that provides a sense of rest, like a vacation at home.

Ivory – a natural, delicate color, an expression of your personal tone.

Blue Bell – breathable, refreshing blue that soothes.

Rose Quartz – an inspiration of tenderness and sweetness.

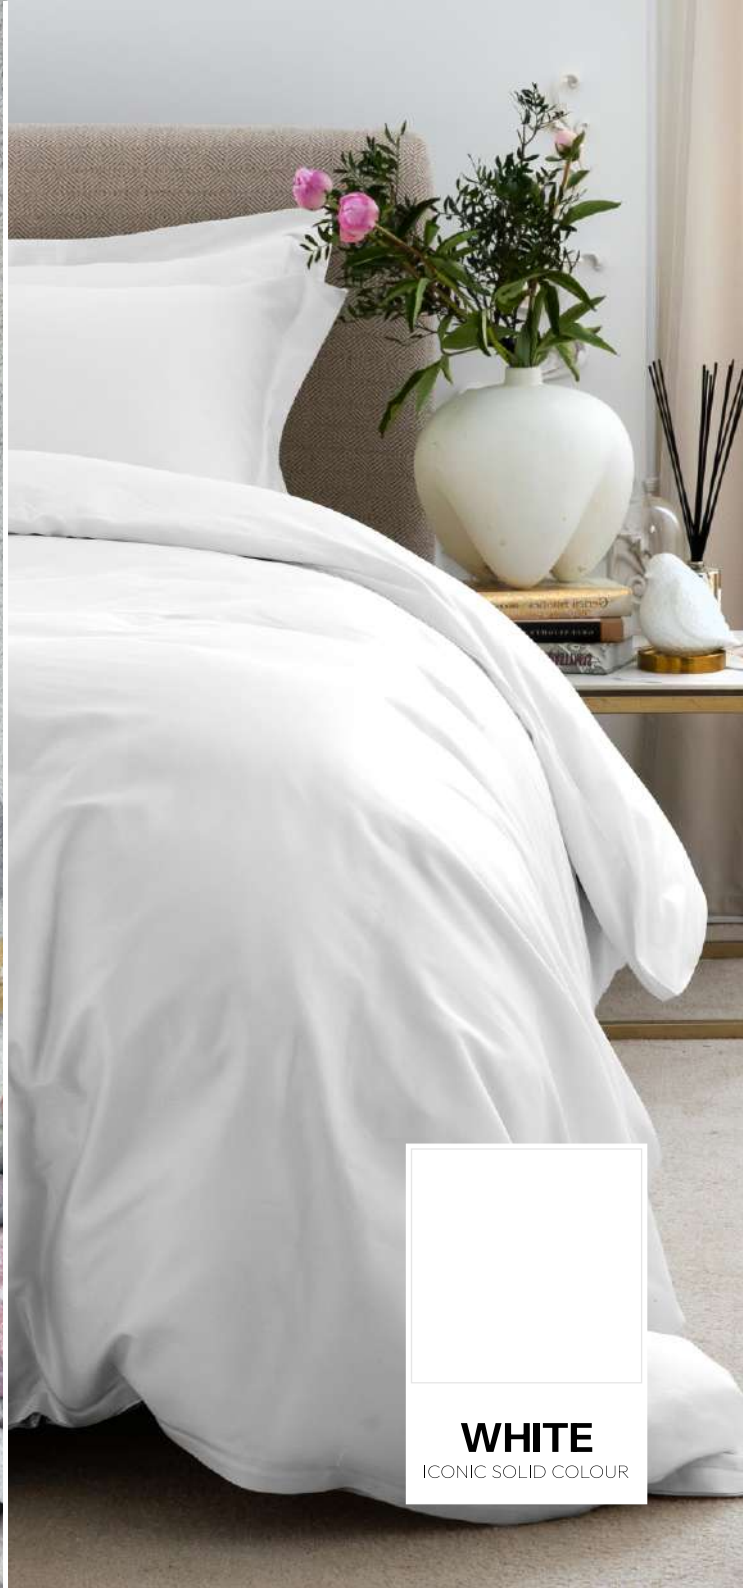

Salvia – a calming green that invites silence and peace.

Taupe – a deep, subtle shade without drama.

Toffee – a symbol of warmth and stability.

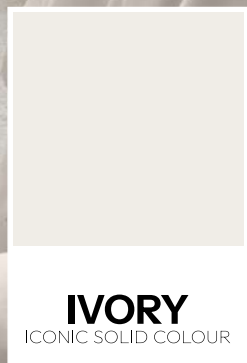

These colors not only decorate but also inspire, create mood, and bring coziness to your home. Let them become a language that conveys your inner state.
