Karalius Žygimantas Augustas mėgo rengtis juodai. Kolekcionavo juvelyrą. Aprangoje derino juodą ir aukso spalvas, kurios puikiai tiko prie jo tamsių ir ryškių itališkų akių paveldėtų iš mamos Karalienės Bonos Sforzos.

Karalienė Barbora Radvilaitė dievino perlus. Jais buvo puošiami visi jos rūbai. Dėl garsiojo vestuvinio perlų ji tapo savo laiko mados ikona.

Karališkai Vilniaus kolekcijai "Slapta meilė" parinktos dvi spalvos - juodo deimanto ir rusvojo perlo, stilizuoti renesanso epochos raštai skirti priminti apie visų laikų dramatiškiausią Vilniaus meilės istoriją.

King Sigismund Augustus loved to dress in black. Collected jewelry. The outfit combined black and gold, which was a perfect match for his dark and bright Italian eyes inherited from his mother, Queen Bona Sforza.

Queen Barbara Raziwill adored pearls. They covered all her clothes. For the heavy wedding pearl head accessory, she became an icon of her time. Two colors have been chosen for the Royal Vilnius collection "Secret Love" - a black diamond and a brown pearl, stylized patterns of the Renaissance era to remind us of the most dramatic love story of Vilnius ever.
